

AGENDA

Workshop: What do we know about mercury deposition in the upper Midwest? February 22, 2006

O'Hare International Center – Auditorium
10275 W. Higgins Road
Rosemont, IL

Purposes:

- Review current information on mercury deposition in the region
- Discuss on-going mercury deposition research
- Provide air and water perspectives on mercury deposition

9:30 am CDT Welcome, Introductions, and Meeting Overview

Mercury Deposition Monitoring

- National Atmospheric Deposition Program: Mercury Deposition Network -
David Gay, Illinois State Water Survey
- Mercury Deposition Monitoring in Indiana - **Marty Risch, USGS**

10:30

Sources of Mercury

- Overview - **Alexis Cain, USEPA**
- Source Identification - **Joy Taylor Morgan, MDEQ**

11:15

Modeling Applications

- CMAQ Modeling – **Russ Bullock, USEPA**

12:00

Lunch (to be provided)

1:00

Mercury Research Activities

- **Dr. Gerald Keeler, Univ. of Michigan**
- **Dr. James Schauer, Univ. of Wisconsin**

2:30

Mercury Total Maximum Daily Loads (TMDLs)

- Overview – **Marcia Wilhite, IEPA**
- Minnesota's Statewide TMDL – **Ed Swain, MPCA**

3:15

Open Discussion

3:30

Adjourn
