

## Ozone Attainment Demonstration SIP Submission Schedule

### November 15, 1994

Each State to submit to USEPA a letter summarizing State efforts to date concerning assessment of levels of VOC/NOx controls necessary to show attainment, and supporting materials

Each State to include as elements of their submittal:

- \* SIP Submission Schedule
- \* Lake Michigan Regional Ozone Modeling Report (September 1994)
- \* Memorandum of Agreements between Lake Michigan States
  - \* Southern Lake Michigan Ozone Modeling Project (September 1989)
  - \* Development of Interstate Ozone Control Strategies (1991/1992)
- \* Emission Control Sensitivity Evaluations (October 1994)
- \* Control Strategies Identified to Date for Modeling Purposes

### January 1995

Each State to submit to USEPA the following materials:

- \* Summary of public hearing on November 15, 1994 submittal
- \* Possible description and schedule for regional superdomain UAM-V modeling, or other approaches, to assess boundary conditions

### August 1995

Each State to submit to USEPA the following materials:

- \* Results of regional superdomain UAM-V modeling, or other approaches, to assess boundary conditions
- \* Identification of extent of VOC reductions in nonattainment areas and boundary condition assumptions and quantification

**November 1995**

Each State to submit to USEPA the following materials:

- \* List of VOC controls for each of the nonattainment areas
- \* Identification of VOC strategies which include trading programs, including regional trading

**November 1996**

Each State to submit to USEPA the following materials:

- \* Regional control plan
