**PHASE III AIR TOXICS DATA ANALYSIS
WORKBOOK**

**WORKBOOK
STI-903553-2592-WB**

**By:
Hilary R. Hafner
Michael C. McCarthy
Sonoma Technology, Inc.
1360 Redwood Way, Suite C
Petaluma, CA 94954-1169**

**Prepared for:
Lake Michigan Air Directors Consortium
2250 East Devon Avenue, #250
Des Plaines, IL 60018-4511**

August 30, 2004

DISCLAIMER

This report was prepared as a result of work sponsored and paid for, in whole or part, by the U.S. Environmental Protection Agency (EPA). The opinions, findings, conclusions, and recommendations are those of the authors and do not necessarily represent the views of the EPA. The EPA, its officers, employees, contractors, and subcontractors make no warranty, expressed or implied, and assume no legal liability for the information in this report. The EPA has not approved or disapproved this report, nor has the EPA passed judgment on the accuracy of the information contained herein.

The mention of commercial products, their source, or their use in connection with material reported herein is not to be construed as actual or implied endorsement of such products.

PREFACE

This workbook is a work in progress. As more data are available, analyses performed, reports reviewed, etc., the workbook presentations and supporting information can be expanded and enhanced. The Lake Michigan Air Directors Consortium (LADCO), EPA, and Sonoma Technology, Inc. (STI) welcome user comments, suggestions, and example analyses, new databases, or additional references that might enhance the discussions. The user should keep in mind that this workbook provides a framework from which to begin to perform analyses of air toxics data and a launching point for new ideas concerning air toxics data; it is not meant to be the definitive method by which to perform analyses.

ACKNOWLEDGEMENTS

This project was funded by the U.S. Environmental Protection Agency and administered by Mike Koerber of the Lake Michigan Air Directors Consortium. We are very appreciative of the contributions and direction of Mike Koerber and the Air Toxics Steering Committee to this project, especially Catherine Brown, Motria Caudell, Mike Gilroy, Greg Landis, Sharon Nizich, Ted Palma, Joe Touma, and Dick Valentinetti. Ms. Hilary Hafner of STI served as the principal investigator (PI) of the air quality characterization and Mr. Neil Wheeler was the PI for model evaluation.

Many people contributed to the technical work presented in this workbook. In each section, the specific authors of the presentations and technical memoranda are provided. Major contributors to the workbook contents by workbook section are as follows:

Workbook Elements	STI Authors

The authors also thank Dr. Paul Roberts for internal review of documentation and technical guidance; Dr. S. Montzka of National Oceanic and Atmospheric Administration Climate Monitoring and Diagnostics Laboratory (NOAA CMDL) for his data and contributions to the background manuscript; S. McClure of Cooperative Institute for Research in the Atmosphere (CIRA) for his description of the air toxics web site; T. Stoeckenius of ENVIRON for his description of the AMDAS data analysis tool; and the STI publications staff for reviewing, editing, and preparing the workbooks.

TABLE OF CONTENTS

<u>Section/Tab</u>	<u>Page</u>
DISCLAIMER	iii
PREFACE	iii
ACKNOWLEDGEMENTS	iii
1. INTRODUCTION	
1.1 Analysis of the National Air Toxics Data Archive Phase III: Introduction (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
1.2 Policy-relevant Lessons Learned from Previous Air Toxics Analyses	
1.3 LADCO Analysis of Air Toxics Monitoring Data Work Plan	
2. BACKGROUND CONCENTRATIONS	
2.1 Background Concentrations of HAPs (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
2.2 Putting Air Toxics Concentrations in Perspective (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
2.3 Background Concentrations of 18 Core Air Toxics in the Northern Hemisphere (Draft Manuscript)	
3. DATA VALIDATION	
3.1 Database Overview: Cleaning and Averaging (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
3.2 Data Validation Summary Sheets for 18 Hazardous Air Pollutants	
3.3 An Approach to Data Validation of Air Toxics Data at Multiple Sites in Phoenix, Arizona (Draft Manuscript)	
3.4 LADCO Toxics Historical Database: Data Validation and Averaging Procedures and Table Descriptions	
4. SPATIAL CHARACTERIZATION	
4.1 Spatial Variability in Hazardous Air Pollutants (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
4.2 Use of GIS Tool to Investigate Suitable Diesel Emissions Monitoring Locations in Detroit, Michigan (AWMA Symposium on Air Quality Measurement Methods and Technology-2004, Research Triangle Park, NC, April 19-22, 2004)	
4.3 Spatial Variability in Air Toxics	

TABLE OF CONTENTS (Concluded)

<u>Section/Tab</u>	<u>Page</u>
5. TEMPORAL TRENDS	
5.1 Temporal Trends in Hazardous Air Pollutants (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
5.2 Temporal Trends in Air Toxics	
6. SOURCE APPORTIONMENT	
6.1 Apportionment of Air Toxics Data Using Principal Component Analysis (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
6.2 Apportionment of Air Toxics Using Principal Component Analysis	
7. MODEL EVALUATION	
7.1 Urban-Air Toxics Modeling for Three Pilot Cities (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
7.2 Urban-Air Toxics Modeling and Model Evaluation for Three Pilot Cities	
8. PRESCRIBED ANALYSES	
8.1 Example Prescribed Analyses for Air Toxics (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
8.2 Data Analyses for Detroit, Michigan, Air Toxics Data Collected in 2001	
9. TOOLS	
9.1 Data Validation and Analysis Tools for Air Toxics (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
9.2 BarChartMapper Description	
10. SUMMARY	
10.1 Analysis of the National Air Toxics Data Archive Phase III: Summary (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
10.2 Policy-Relevant Lessons Learned From Phase III Air Toxics Analyses (White Paper)	
10.3 Suggestions for Future Work (Presentation at Workshop on Air Toxics Data Analysis, Rosemont, IL, June 2-3, 2004)	
11. APPENDICES	
Draft Outline for Future Air Toxics Workbook	
Electronic Files of Workbook
