

**Regional Air Quality Workshop
Wednesday, November 17, 2004**

O'Hare International Center - Auditorium
Located adjacent to:
Sheraton Gateway Suites Chicago O'Hare
6501 North Mannheim Road
Rosemont, IL 60018

A G E N D A

Purposes:

- To share information from past experience and ongoing analysis about the emission reduction potential of various control measures.
- To discuss the results of SEMCOG's study of the emission reduction benefits of a wide range of gasoline and diesel fuels.
- To discuss implementation issues associated with fuels and other control measures.
- To identify possible areas for collaboration/information exchange on issues related to SIP development in various states.

Participants: Those actively involved on committees, work groups, etc. that are providing input to SIP development are invited.

To Register: Contact Susan Menconi (LADCO) at 847-296-2181 or ladco@ladco.org. There is no registration fee for this workshop.

10:00 am CST Welcome, Introductions, and Meeting Overview

10:10 am Overview of Ozone and PM2.5 in the Upper Midwest (Mike Koerber, LADCO)

- Current air quality and nonattainment designations
- Preliminary control strategy analyses

10:30 am SIP Development Process in Local Areas (**NOTE:** State Air Directors are in charge of inviting these areas to give a talk. Each area will have 5-7 minutes each.):

St Louis	Louisville	Cincinnati	Indianapolis
Columbus	Cleveland	Detroit	Chicago
Milwaukee	NW Indiana		

12:00 pm Lunch (**will be provided**)

- 1:00 pm Emission Reduction Potential of Control Strategies: What do we know so far?
- Results of SEMCOG's fuels evaluation (Tom Darlington, Air Improvement Resource, Inc.) (60 minutes)
 - Fuel implementation issues (Bob Leidich, BP) (20 minutes)
 - LADCO's evaluation of candidate control measures (Ed Sabo, MACTEC) (40 minutes)
 - Other mobile source control measures (Joan Weidner, SEMCOG) (15 minutes)
- 3:15 pm Open Discussion (Moderator: Chuck Hersey, SEMCOG)
- What else should we do to promote regional coordination (e.g., master list of contacts, master list of control measures, etc)?
 - Should we have more regional workshops? If so, then what topics should be addressed?
 - What are the opportunities for regional control programs?
- 4:00 pm Adjourn
