

How do we handle APTI
course updates?

What do we do when Dennis
retires?

APTI Course Updates

- EPA-directed update
 - Course retained at EPA
- MJO-directed update
 - Course retained at EPA

What initiates an update?

- Edits? Errors?
- New technology?
- Rule changes?

Instructor's Style

- What about changes made by an instructor?
 - Each instructor incorporates a piece of themselves.
 - Is this just extra material?
 - Does this amount to an update?
 - Makes each course similar yet unique depending on instructor.
 - Does this begin to dilute the course?

Instructor's Style

- When do these “additions” finally amount to an update?
- Do we ever get feedback from instructors about age of course content?
- Is there an appropriate trigger for an update?
- Do we even need to care?

APTI Courses

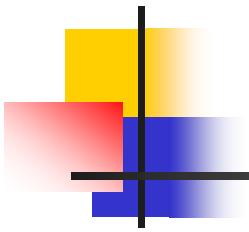

- EPA houses APTI courses now.
- Where do we house the courses when EPA discontinues 1 FTE?
 - MJOs?
 - NACAA?
 - State?

New Courses?

- Two types:
 - Paid for/directed by MJOs
 - Individually developed by instructor

New Courses?

- 
- MJO-developed courses retained by MJO
 - Is this appropriate?
 - Central repository?
 - Can be used by other instructors
 - Instructor-developed courses
 - Retains rights and not shared
 - Compensation for sharing?
 - Good or bad?

Summation

- Do we have a course of action?
