How could this course be improved?		Many responses to make course longer. Some course material eligible.		More discussion. New transportation regs for Hazewaste materials. Organize slides & materials. Gear more towards air inspectors.	More case studies. More info on specific job duties. Fall protection, safe standards & hazard waste site scenarios.	Update material & equipment. Time management.	
Other general comments:		Very knowledgeable instructors, materials, CEM.			Good job!	Good instructor. Precheck on lab. Stratification check not same as cyclone flow check	Overwhelming positive response to videos, case studies & exercises; needs to be more job oriented.
