These By-Laws may be amended by giving written notice of any proposed amendment to the By-Laws and with discussion at any official meeting of the Consortium. Any proposed amendment shall be discussed and considered at the meeting for which notice was given. However, a vote on the proposed amendment can be taken only at the following meeting. Unanimous affirmative vote of all members is required for approval of any amendment of the By-Laws.

and in accordance with Article V (Additional Members) which provides that:

Upon agreement of all members, other states may be invited join the Consortium, provided any state seeking to become a member agrees to assume the responsibilities of membership and share in the cost of operations.

we, hereby, authorize that the By-Laws are amended to read in their entirety as follows:

Article I - Preamble

The Lake Michigan Air Directors Consortium (the Consortium or LADCO) was formed in 1989 by the air pollution control directors of the States of Illinois, Indiana, Michigan, and Wisconsin for the purpose of managing an ozone modeling study for the lower Lake Michigan area in accordance with a Memorandum of Agreement (MOA) between the four states. Over time (and in accordance with subsequent MOAs), LADCO's mission evolved to include other regional pollutants (e.g., fine particles, regional haze, and air toxics), other geographic areas of concern (e.g., area encompassed by its member states), and even, at the direction of the member States, activities that are national in scope. In 2004, the State of Ohio joined LADCO, and in 2012 the State of Minnesota joined LADCO.

Article II - Name

The name of the corporation is the Lake Michigan Air Directors Consortium and shall be referred to by either that title, or LADCO, or as the Consortium.

Article III - Purpose

The purposes of the Consortium are to:

- a) provide technical assessments for and assistance to its member states on problems of air quality issues;
- b) provide a forum for its member states to discuss air quality issues;
- c) encourage, among its members, the exchange of knowledge, experience, and information related to air quality issues;
- d) promote communication and understanding of air quality issues and studies in cooperation with the United States Environmental Protection Agency (USEPA);
- e) provide information and respond to questions related to the work of the Consortium;
- f) receive and disburse funds from and to any source to further the purposes stated herein; and
- g) organize and coordinate training for its member states.

Article IV - Membership: Directors

Membership shall be composed of the directors of the air pollution control programs for Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin. These members shall together constitute the Board of Directors of the Consortium.

Article V - Additional Members

Upon unanimous agreement of all members, other states may be invited to join the Consortium, provided that any state seeking to become a member agrees to assume the responsibilities of membership and share in the cost of operations. The States of Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin may establish different levels of membership for new members, and may establish different obligations and rights, including voting rights, for additional members.

Upon unanimous written agreement of all members, the Consortium may from time to time enter into memoranda of agreement or other agreements with other states, regional planning bodies, federal land managers, Indian tribes, local units of government, USEPA, and other interested parties as necessary or desirable to address air quality issues, including, but not limited to, the National Ambient Air Quality Standards (NAAQS) for ozone, the NAAQS for particulate matter, air toxic contaminants, and regional haze/visibility impairment.

The Consortium may also seek the advice of regulated industries, local governments, public interest groups, and others on matters related to air quality. The member states maintain and reserve the right to limit the scope of any such discussions that occur among LADCO and non-members.

Article VI - Dues and Funding

The Consortium may establish annual dues and, subject to the unanimous approval of the members, receive funds from any source which will provide funding for management, contractual obligations, grants, or other purposes related to the Consortium's activities. Special attention should be given to receiving funds through the Administrator of the USEPA pursuant to Section 103 of the Clean Air Act.

Article VII - Meetings

The Board of Directors shall hold regular conference calls and at least one (in-person) meeting each year.
